

I love XM Traffic and Weather for DC. You don't have to hear a lot of other stuff to get to what you are really trying to find out...which tends to be why the toll road is so backed up. Not only that, but local radio stations only do a traffic/weather report sporadically, every 10 mins or so. And in this area, a lot can happen in 10 mins. Leave XM alone...More people would benefit by using XM...plus I pay for the service...why shouldn't I be entitled to the traffic and weather - WHEN I WANT TO HEAR IT.
